## Quick Start Guide
MBP28, MBP28/2, MBP28/3, MBP28/4
MBP28 Twin, MBP28 Triple, MBP28 Quad

For a full explanation of all features and instructions, please refer to the User's Guide.

## 1. Setting up your digital baby monitor

1.1 Camera unit power supply

1. Insert the DC plug of the power adapter with the smaller DC plug into the DC socket in the side of the camera unit, as shown.
2. Connect the other end of the power adapter to a suitable mains socket or power outlet.

DC PLUG

1.2 Parent unit battery installation

A rechargeable battery pack is supplied and should be fitted, so that the parent unit can be moved without losing the link and picture from the camera unit(s). Charge the parent unit before you use it for the first time or when the parent unit indicates that the battery is low.

1. Take off the belt clip/stand.
2. Slide off the battery compartment cover.
3. Insert the plug of the battery pack into the socket inside the battery compartment, and fit the battery pack into the compartment.
4. Replace the battery compartment cover and reinstall the belt clip/stand (refer to section 1.3).
5. Insert the DC plug of the power adapter with the bigger DC plug into the DC socket in the side of the parent unit.
6. Connect the other end of the power adapter to a suitable mains socket or power outlet.
7. The **Charging Indicator** comes on.

Battery PLUG

1.3 Belt clip/stand on parent unit

1. The belt clip/stand attaches to the back of the parent unit and clips into the locking slots on each side.

NOTE
It will only fit one way, as indicated by UP and the arrows on the inside of the clip.
2. The unit comes with the accessory fitted in the belt clip position.
3. You can convert it into the stand mode, by simply pulling the back part of the clip out slightly and then rotating it by half a turn, as shown in the diagram below.
