MORE TIMELY INFORMATION

## Why move to BI 4.2?

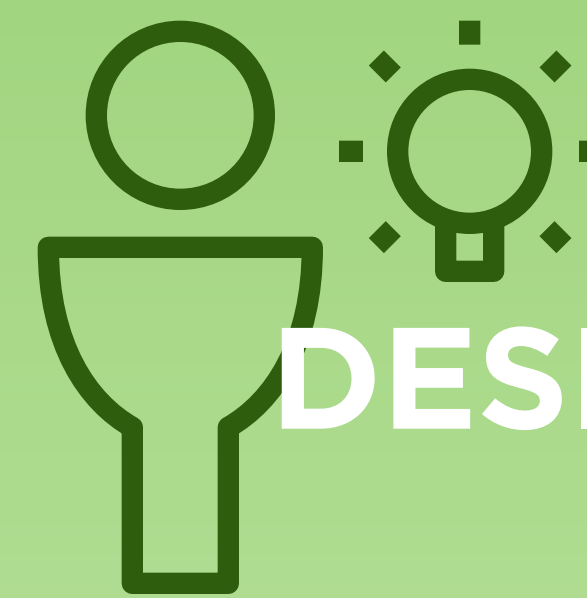

## BI 4.2 embraces all users

ADMINISTRATORS

ANALYSTS

DESIGNERS

## What's new?

SAP HANA Online or Direct access to HANA Views

Now your web intelligence is directly connected to SAP HANA view and you can obtain your data from there.

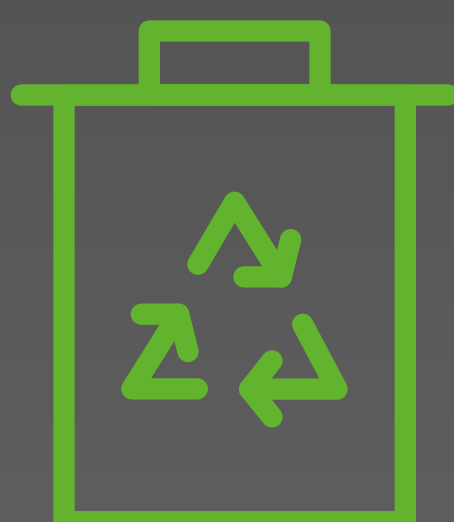

Administrators Cockpit

No more Ad-hoc reports or dashboards, with the new cockpit a glance at the basic statistics come as an out of the box feature.

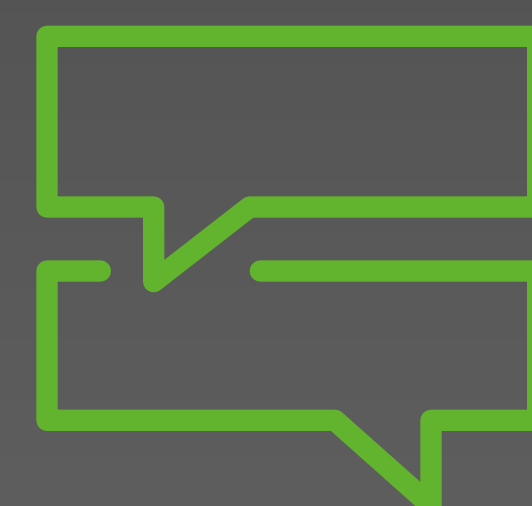

Parallel Data Provider Refresher

This can significantly improve performance of Webis.

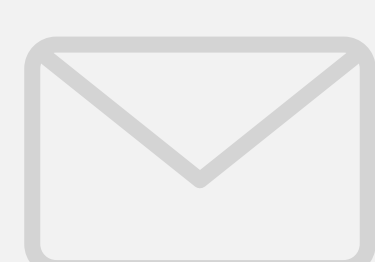

Recycle Bin

How many times have we regretted having deleted something? Now everything can be restored.

Commenting

Commenting on a report can be included and stored in a database without having to use or include Add Ins.
