SPECIAL UK SPEC NOT SEMI

SIG AIR MCX VIRTUS PCP .22

PRE-CHARGED PNEUMATIC HUNTING RIFLE

Designed as a UK Specific, non-semi automatic model, this latest expansion to the SIG AIR precision line of airguns sees the introduction of SIG AIR products to the pre-charged pneumatic (PCP) category of airguns. The MCX VIRTUS PCP doubles the muzzle energy of classic C02 models and uses the SIG Rapid Pellet Magazine making it a great tool for target training and defending against unwanted varmints.

SPECIFICATION

- Stealth Gray housing, handguard and buttstock
- 30-round RPM™ (Rapid Pellet Magazine)
- Flip-up front and rear sights
- Velocity up to 700fps

SIG RPM

The Rapid Pellet Magazine uses SIG's patented pellet drive system. Rifles come standard with one magazine and refillable belt. Accessory RPM (purchased separately) includes three spare belts.

SPRINGFIELD ARMORY

A NAME THAT SPEAKS FOR ITSELF

Founded in 1777 as an armory at the request of George Washington, Springfield Armory started producing firearms in 1794. As one of the most established manufacturers on the market. Springfield Armory brings over two centuries of expertise to airgun design. Every model shows the hallmarks of excellence associated with this time-honoured brand. When looking for accuracy, performance, and fun, Springfield Armory air pistols are the perfect option.

CONTOURED FOREND GRIP

ADJUSTABLE CHEEK RISER

OVERMOLDED PISTOL GRIP

DURABLE BUTTPAD

WHAT MAKES ORYX SO GREAT?

ORYX is a one-piece integrated aluminium chassis and buttstock created to improve the consistency and accuracy of your bolt action rifle.

FREE FLOATING BARREL We let the bore do the chore. The ORYX keeps your barrel free of any contact with the chassis components for greater consistency.

SOLID ACTION INTERFACE
Each ORYX is designed for your specific rifle model - holding your action solid for better accuracy.

INTEGRATED RIFLE STOCK From the forend to the buttpad - ORYX is one piece of aircraft grade aluminium. Solid. Straight.

FEATURES
• Chassis panels come in ODG • Weight: 4.2lbs • LOP: 13 - 13.5" (Additional LOP can be achieved with our spacer kit) • Material: 6061 • Finish: MIL Spec Type III hard anodize • Accepts AR-15 Grips (included) • M-LOK pattern slots along underside of forend • Uses AICS pattern magazines • Free floating barrel • Maximum barrel diameter of 1.250"

SUMMON THE BIFROST

BIFROST®

GRS®
GRSRIFLESTOCKS.COM

The GRS Bifrost Black is made from glass fiber reinforced composite material. The grip and forehand area have a rubber surface - steady and comfortable in any type of weather. Our unique SpeedLock 2.0 system makes it easier to adjust the length and height of the stock, and, importantly, to resist recoil from the heaviest calibers. As with all our stocks, the grip has an angle of six percent so your hand is in its best natural state. The Picatinny Rail mounting system integrates into four different positions on the stock, making it easy to mount light, laser, monopod and other accessories. GRS Bifrost is perfect for: The rugged hunter on steroids.

SPECIFICATION

- Weight 1.35kg • LOP 35 - 38 cm
- 30 - 65 % glass fiber reinforced composite
- Canting of recoil pad in 5° increments
- SpeedLock 2.0 adjustment system
- Brown and Green colours
- Right and Left hand available
- Recommended torque settings 5.2nm.

ACCESSORIES AVAILABLE

- 1" Limbsaver recoil pad
- Prepared for versapod
- GRS spigot for versa pod style bipods
- Piccatinny rails 2 pack composite
- Piccatinny rail cover short
- Piccatinny railcover long

ADI WORLD CLASS
POWDERS AND AMMUNITION

MATCH GRADE AMMUNITION

Superior Ballistic Temperature Independence technology embedded within our cartridges means that you can be confident your ammnition will hit where you aim.

We are the largest supplier of explosive ordnance to the Australian and New Zealand Defence Forces and can trace our ammunition heritage back to the late 19th century. Through the establishment of the Colonial Ammunition Company in Victoria we played a key role restructuring the Australian munitions manufacturing industry landscape over the final decade of the 20th century.

SIERRA™
The Bulletsmiths™

THE NEW GAMECHANGER HUNTING BULLET FROM SIERRA.

The BulletSmiths® at Sierra have combined legendary accuracy with bone-punching power into a brand new bullet design to put you ahead of the game on your next hunt. Outside, the GAMECHANGER features an extremely accurate boat tail profile with a polymer tip seated in a hollow point design for fast expansion on impact. Inside, the lead core surrounded by a thick, tough copper jacket delivers excellent penetration and controlled expansion at any range. It's the confidence you'll want to make the shot—and deliver a potent payload at the end of the line—and that's a GAMECHANGER on any hunt. Look for the new GAMECHANGER at your favorite retailer in a variety of popular big game calibers.

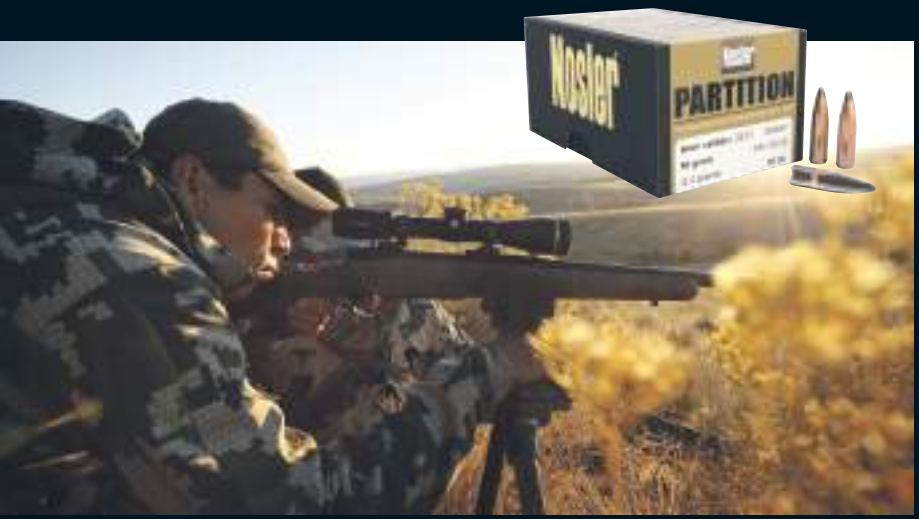
Nosler®
UP FRONT



The more you hunt, the more you start to realize how unpredictable and unforgiving nature can be, which is why we engineered the Ballistic Tip® Hunting bullet to be very predictable and extremely forgiving. Whether you're after Whitetails, Blacktails, Mulies or Pronghorns, Ballistic Tip® bullets deliver the kind of accuracy, consistency and down-range punch required for putting down that buck in any situation. The combination of performance and versatility that Nosler® has built into these bullets has resulted in over 25 years of successful hunts for sportsmen across the country – and around the world.
